

## **AARP SMART DRIVING CLASSES**

The AARP Smart Driving six-hour refresher course is available to all licensed drivers. It is designed to address the specific needs of older drivers, including age-related physical changes, declining perceptual skills, rules of the road, local driving problems, and license renewal requirements.

Participants are eligible to receive a discount on their car insurance premiums. The course needs to be taken every three years to keep the discount in effect.

Plan to bring your driver's license, membership card, something to write with, and \$20 check payable to AARP (\$25 for non-members).

Please contact the Department of Aging and Youth with any questions or to check on other classes.
