Wayne County, NY

OFFICIAL PRESS RELEASE **FOR IMMEDIATE RELEASE**

04-27-2020

Wayne County (Lyons, NY) – Wayne County Public Health can confirm at this time that a Wayne County Resident who had tested positive to COVID-19 has died in an area hospital. This individual was in their 60's, and were facing multiple underlying serious health conditions prior to testing positive. Wayne County Public Health would like to extend its sincerest condolences to the family.

Wayne County Public Health is confirming our total number of COVID-19 cases currently stands at 68. At this time, 44 of the 68 confirmed cases have resolved (recovered). We can also confirm that we have received 1035 processed tests results, with 967 of those results being negative. As with any case, any possible contacts to a positive case are investigated and contacted as a priority. To protect the privacy of these individuals, no further information will be provided at this time. Wayne County Public Health is also aware of conflicting reports of our number of positive COVID-19 cases and can confirm with certainty, and with the backing of the New York State Department of Health regional office, that our total number of positive cases is 68.

The 68 Wayne County individuals who have tested positive for COVID-19 are:

- 2 Female/Males under the age of 10
- 9 Females/Males in their 20s
- 11 Females/Males in their 30s
- 7 Females/Males in his 40s
- 15 Females/Males in their 50s
- 12 Females/Males in their 60s
- 11 Females/Males in their 70s
- 1 Female/male in their 80s

Wayne County Public Health would like to remind residents that continuing with Social Distancing is vital to the ongoing fight against COVID-19. Please continue to only travel into public spaces when absolutely necessary, go alone if possible, wash your hands or use sanitizer, and to wear a cloth face mask or covering anytime you must go out into a space where Social Distancing could be difficult.
