Committee No. 2

Date: September 1, 2020

Committee Chair: C. Verkey
Department Head: G. Bastedo

Authorization to Execute an Agreement with the Ontario Fire District #1

WHEREAS, continual improvement of the County's public safety communications (radio) system through the addition of transmitter and receiver sites in areas of greatest need has been a County strategy for many years, and

WHEREAS, the northwest corner of the county has been identified as an area of significant need, due partially to the topography, with significant decreases in elevation of northern areas nearing Lake Ontario in the Towns of Ontario and Williamson, and

WHEREAS, the County, for several years, has operated a receiver site at the Ontario Fire Company Fire Station One, authorized through the execution of a lease agreement between the County and the Ontario Fire District, with equipment of the County housed in the fire station, and antennas of the County installed on a communications tower owned by the Fire District at the site, and

WHEREAS, the Fire District operates its own internal radio communications system from the site and tower, with the District also currently in need of system improvements to eliminate operational issues and performance limitations, and

WHEREAS, a joint venture between the County and the Fire District to dismantle the existing tower, and construct a new, taller tower that would be adequate for the needs of both parties at the current site, would be in the best interest of both the County and the Ontario Fire District; now, therefore be it

RESOLVED, that a Tower Construction and Lease Agreement between the County of Wayne and the Ontario Fire District #1 is hereby authorized, with associated project work to include the dismantling of the current Fire District tower, the construction of a new foundation and tower of not less than 200 feet in height as its replacement, and certain modifications within Ontario Fire Station One to house the communications equipment of both parties, and be it further

RESOLVED, that the costs for dismantling the current tower, construction of its replacement, and building modifications shall be the responsibility of the County, funded primarily through the State Interoperable Communications Grant program, and be it further

RESOLVED that there shall be no ongoing lease payments by the County to the Fire District for the housing of County equipment within the fire station, and after said construction and modifications have been completed, ongoing costs for building upkeep, and all utility costs for both parties, shall be the responsibility of the Ontario Fire District, and be it further

RESOLVED, that the Wayne County Remote Site Lease Agreement, previously executed by the Ontario Fire District #1 and the County in February, 2011, shall be terminated, and replaced with the aforementioned Tower Construction and Lease Agreement upon its full execution, and be it further

RESOLVED, that the Chairman of the Board of Supervisors shall be authorized to execute the Tower Construction and Lease Agreement subject to the approval of the County Attorney as to form and content.
